

Submission Deadline: 3rd August 2022

Intern Video Interview Questionnaire

Hey everyone, below you will find different questions we want you to answer for this year's intern video. Be organic, be yourself, and most importantly, be honest! This video is our space to share why we came here and how we think this internship has helped us grow from students and grads who didn't know a thing to young professionals who are now very well-versed in corporate lingo and ready to start our careers. If you have any questions at all or need some ideas to jump-start your process, don't hesitate to reach out to Tori Carlos, Rebekah Timms, or Joel Adamson. We can't wait to see this all come together!

NOTES

- **Don't be afraid of messing up a take. Remember we want your blooper reels!**
- **Try and say a few sentences for each response and try to repeat the question in your answer**
 - Ex: "My favorite part about interning at DE was..."
- **Make sure to take a little pause between each question.**
- **Try to be specific to your role, experience, and responsibilities within DE.**

QUESTIONS

1. If you could use one word to describe how you felt prior to starting the DE Bold internship program, what would that word be?

- We want an "I was ___" statement for this response (This will help lay out the storyline) For example, "I was nervous before starting DE" or "I was anxious"

2. How much did you know about the Education Technology industry before beginning your DE internship?
3. Interning remotely can be challenging. How do you feel DE has managed to make the most of a remote internship?

3a. (for UK interns) How have you found collaborating and working remotely with those across the world?

4. What has been your favorite part about interning at DE and can you explain why?
5. What projects have you been working on, and have they been rewarding?
 - **Make sure you do not talk about any projects that are confidential!**
6. If you could go back and tell yourself something before you started the internship, what would it be?
7. In what ways has this internship at DE helped you grow in a professional sense?

8. If you could use one word to describe how you feel about your abilities now that the internship is ending, what would that word be? How do you feel now?
 - This is like the first question but this time, we want an “I am ____” statement. For example, “I am now confident because of DE” or something along those lines.
9. If you want to say anything extra about your internship experience that the questions did not cover then please do! You can talk about your intern buddy, about connecting with your peers, or anything you’d like. Remember this is your space to talk about your time with DE, so don’t hold back.
